## What were the instructor's major strengths?

### Comments

He was able to help clarify what was going on in the class since I had a very hard time understanding it in the lecture. I also liked how he used the recitation to answer any questions we had before going on and covering other concepts.

Very helpful, and open to giving explanations if needed.

Always free to work with students one-on-one and made schedule as available as possible.

He explained problems differently than in the lecture, and it made the material easier to understand.
